ABOUT WESTCHESTER CAPITAL MANAGEMENT

Westchester, an affiliated manager of Virtus Investment Partners, specializes in liquid alternative investment strategies, offering investors deep expertise in publicly announced event opportunities. With a proven track record dating to 1989, the firm has evaluated more than 10,000 transactions and invested in over 5,000 mergers, acquisitions, and corporate reorganizations, over 98% of which have been completed.

¹Based on historical performance trends. No assurance can be given that the historical return and risk profiles will be achieved. **Past performance is not indicative of future results.**

²Equities measured by the S&P 500® Index. Fixed income measured by the Bloomberg U.S. Aggregate Bond Index.

Virtus (NASDAQ: VRTS) is a distinctive partnership of boutique investment managers, singularly committed to the long-term success of individual and institutional investors.

- We are not constrained by a single investment approach; rather, we provide access to independent, specialized investment philosophies through our multi-discipline, multi-strategy approach.
- We have the flexibility, agility, and responsiveness of a boutique asset management firm with similar product breadth and investment talent of our larger peers.
- We are committed to thoughtfully providing investment solutions, adhering to the highest standards of product quality, operational excellence, and fiduciary responsibility.

IMPORTANT RISK CONSIDERATIONS

The Merger[®] Fund: 3, 8, 12, 4, 9, 1, 2, 5, 13, 11, 7, 10; **Virtus Westchester Event-Driven Fund:** 3, 8, 4, 12, 9, 1, 2, 5, 7, 10; **Virtus Westchester Credit Event Fund:** 3, 8, 1, 12, 9, 2, 5, 6, 4, 7, 10.

¹**Credit & Interest:** Debt instruments are subject to various risks, including credit and interest rate risk. The issuer of a debt security may fail to make interest and/or principal payments. Values of debt instruments may rise or fall in response to changes in interest rates, and this risk may be enhanced with longer-term maturities. ²**Derivatives:** Derivatives may include, among other things, futures, options, forwards and swap agreements and may be used in order to hedge portfolio risks, create leverage, or attempt to increase returns. Investments in derivatives may result in increased volatility and the portfolio may incur a loss greater than its principal investment. ³**Fundamental Risk of Investing:** There can be no assurance that the portfolio will achieve its investment objectives. An investment in the portfolio is subject to the risk of loss of principal; shares may decrease in value. ⁴**Foreign Investing:** Investing in foreign securities subjects the portfolio to additional risks such as increased volatility; currency fluctuations; less liquidity; less publicly available information about the foreign investment; and political, regulatory, economic, and market risk. ⁵**Hedging:** The portfolio's hedging strategy will be subject to the portfolio's investment adviser's ability to correctly assess the degree of correlation between the performance of the instruments used in the hedging strategy and the performance of the investments in the portfolio being hedged. ⁶**Lower-rated Securities:** Instruments in lower-rated and non-rated securities present a greater risk of loss to principal and interest than higher-rated securities. ⁷**Market Volatility:** The value of the securities in the portfolio may go up or down in response to the prospects of individual companies and/or general economic conditions. Local, regional, or global events such as war or military conflict, terrorism, pandemic, or recession could impact the portfolio, including hampering the ability of the portfolio's manager(s) to invest its assets as intended. ⁸**Merger-arbitrage & Event-driven:** Merger-arbitrage and event-driven investing involve the risk that the adviser's evaluation of the outcome of a proposed event, whether it be a merger, reorganization, regulatory issue, or other event, will prove incorrect and that the fund's return on the investment may be negative. ⁹**Portfolio Turnover:** The portfolio's principal investment strategies may result in a consistently high portfolio turnover rate. A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when the portfolio is held in a taxable account. ¹⁰**Prospectus:** For additional information on risks, please see the fund's prospectus. ¹¹**Sector Focused Investing:** Events negatively affecting a particular industry or market sector in which the portfolio focuses its investments may cause the value of the portfolio to decrease. ¹²**Short Sales:** The portfolio may engage in short sales and may incur a loss if the price of a borrowed security increases before the date on which the portfolio replaces the security. ¹³**Technology Concentration:** Because the portfolio is presently heavily weighted in the technology sector, it will be impacted by that sector's performance more than a portfolio with broader sector diversification.

Please consider a Fund's investment objectives, risks, charges, and expenses carefully before investing. For this and other information about any Virtus Fund, contact your financial professional, call 800-243-4361, or visit virtus.com for a prospectus or summary prospectus. Read it carefully before investing.
